

## Roll-out Projects

IPM Alliance's Core management group has successfully managed Projects ranging in size from tenant improvement build outs to large-scale multi-site/multi-state mergers and acquisitions. Our group is comprised of planning, architectural, construction and corporate real estate professionals who have a wide range of experience in all forms of real estate negotiation, construction and project management and programming and planning. While our core business involves on-going project implementation of new and remodeled facilities, IPM and their Principals have completed many task-specific roll-out projects. These projects include the projects listed below and were managed on national levels and on a fast-track schedule.

### **Project Rollouts:**

- Banana Republic Brand Retrofit Program (IPM Managed)
- CalFed Bank-Security upgrades for 135 branches
- CalFed Bank-Headquarters Campus Restack & Consolidation Project (IPM Managed)
